

APPENDIX

DEFINITIONS & DATA SOURCES

ECONOMIC SECURITY

1. Percent Unemployed: Average percent of the civilian labor force that is unemployed per year.

Sources: United States Department of Labor, Bureau of Labor Statistics. More recent estimates may be available at: www.bls.gov/. California Employment Development Department: www.calmis.cahwnet.gov/.

2. Percent of Children and Youth Living in Poverty: Percent of children under age 18 living below the federal poverty level.

Sources: U.S. Census Bureau, 1993-2000 estimates from the Small Area Income & Poverty Estimates Branch and 2001, 2002 & 2003 estimates from the American Community Survey Branch. More recent estimates may be available at www.census.gov.

3. Rate of Children and Youth Receiving CalWORKs Assistance: Average monthly number of children ages 0-17 that are receiving CalWORKs (public assistance) per 1,000 children ages 0-17 per state fiscal year.

Sources: County of San Diego, Health and Human Services Agency, Regional Program Support Division analysis of data provided by the State of California, Department of Social Services, Research and Development Division. County of San Diego, Health and Human Services Agency, Strategy and Planning Division analysis of (1) San Diego County population data provided by SANDAG and (2) California population estimates obtained from the U.S. Census Bureau, Population Estimates Branch, State Estimate By Demographic Characteristics - Age, Sex, Race, and Hispanic Origin Vintage 2003 (July 1, 2000 through July 1, 2003) Files. U.S. Census population estimates are available at www.census.gov.

GOOD HEALTH

1. Percent of Babies with Low Birthweight: Annual percent of live born infants weighing less than 2,500 grams (5 1/2 lbs.) at birth.

Sources: County of San Diego, Health and Human Services Agency, Public Health Services. Maternal, Child and Family Health Services' analysis of data provided by the State of California, Department of Health Services, Center for Health Statistics, Vital Statistics Section, Birth Statistical Master Files; National Center for Health Statistics. Selected data are available on the Internet from the California Department of Health Services' Center for Health Statistics at www.dhs.ca.gov/hisp/chs/default.htm.

2. Rate of Births to Teens: Number of births to teenagers 15-17 years old per 1,000 females ages 15-17 per year.

Sources: County of San Diego, Health and Human Services Agency, Public Health Services. Maternal, Child & Family Health Services' analysis of data provided by the State of California, Department of Health Services, Center for Health Statistics, Vital Statistics Section, Birth Statistical Master Files. Selected data are available on the Internet from the California Department of Health Services' Center for Health Statistics at www.dhs.ca.gov/hisp/chs/default.htm.

3. Percent of San Diego Unified School District Youth Who Reported They Attempted Suicide: Percent of 9-12 grade students surveyed that reported an attempted suicide one or more times during the past 12 months.

Source: San Diego City Schools, Educational Services Division, Comprehensive Health, Physical Education, and Wellness; Centers for Disease Control and Prevention, Youth Risk Behavior Survey. Additional results from the CDC's Youth Risk Behavior Survey (1995-2003) are available on the Internet at www.cdc.gov/yrbbs.

4. Rate of Youth Hospitalized for Self-Inflicted Injuries: The rate of youth (ages 13-18 years) hospitalized for self-inflicted, non-fatal injuries.

Source: California Department of Health Services, Epidemiology and Prevention for Injury Control branch. Additional data on fatal and non-fatal injuries in California from the EPIC branch are available on the Internet at www.applications.dhs.ca.gov/epicdata/default.htm.

5. Percent of Youth that Reported Cigarette Use: Percent of high school students surveyed who reported they smoked cigarettes on one or more of the past 30 days.

Source: San Diego County Office of Education, Safe Schools Unit's Analysis of the 2003 California Healthy Kids Survey Results for San Diego County.

6. Percent of Youth that Reported Alcohol Use: Percent of high school students surveyed that reported they had 1 or more drinks of alcohol on one or more of the past 30 days.

Source: San Diego County Office of Education, Safe Schools Unit's Analysis of the 2003 California Healthy Kids Survey Results for San Diego County.

7. Percent of Youth that Reported Marijuana Use: Percent of high school students surveyed who reported they had used marijuana one or more times during the past 30 days.

Source: San Diego County Office of Education, Safe Schools Unit's Analysis of the 2003 California Healthy Kids Survey Results for San Diego County.

8. Percent of Households that Used Dental Services for Cavity and/or Emergency Treatment: Percent of surveyed households with a child under age 18 that reported that their child had dental treatment for cavities and/or emergency treatment during the past 12 months.

Source: San Diego County Health and Human Services Agency, Public Health Services, Community Epidemiology analysis of the results from the United Way Outcomes & Community Impact Program's 2003 Survey. Results for the 2003 United Way Survey available on the Internet at www.unitedway-sd.org/matters/reports.org.

APPROPRIATE ACCESS TO SERVICES

1. Percent of Households with Children Under Age 12 that Reported Adequate Access to Childcare: Percent of surveyed households with children under 12 that reported a need for childcare and able to obtain all the childcare needed.

Source: San Diego County Health and Human Services Agency, Public Health Services, Community Epidemiology analysis of the results from the United Way Outcomes & Community Impact Program's 2003 Survey. Results for the 2003 United Way Survey available on the Internet at www.unitedway-sd.org/matters/reports.org.

2. Percent of Young Children Who Are Adequately Immunized (HHSA Survey): Percent of surveyed children that were up-to-date on 4:3:1 series (DTP, Polio, MMR/MCV) between 19 and 36 months of age.

Source: County of San Diego, HHSA, San Diego Immunization Initiative, Immunization Random Digit Dialing Survey.

3. Percent of Young Children Who Are Adequately Immunized (CDC Survey): Percent of surveyed children that were up-to-date on 4:3:1 series (DTP, Polio, MMR/MCV) between 19 and 36 months of age.

Source: Centers for Disease Control, National Immunization Survey. The HHSA Survey uses a larger sample size than the CDC Survey. Results from the CDC are available on the Internet from the CDC's National Immunization Program at www.cdc.gov/nip/.

4. Percent of Children and Youth with Health Insurance (HHSA Survey): Average percent of children and youth ages 0-17 that have private or government health insurance including employment provided, privately purchased, Medicare, Healthy Families, Champus, and Medi-Cal.

Sources: San Diego County Health and Human Services Agency, Public Health Services, Community Epidemiology analysis of the results from the United Way Outcomes & Community Impact Program's 2003 Survey, results for the 2003 United Way Survey available on the Internet at www.unitedway-sd.org/matters/reports.org.

5. Percent of Children and Youth with Health Insurance (California Health Interview Survey): Percent of surveyed households with children 0-18 reporting all children in household currently covered by medical insurance.

Sources: California Health Interview Survey, Center for Health Policy Research, University of California, Los Angeles. Results from the 2001 CHIS are available on the Internet at www.chis.ucla.edu/.

SAFE ENVIRONMENT

1. Rate of Substantiated Cases of Child Abuse/Neglect: Annual number of children ages 0-17 determined by a social worker to have been a victim of child abuse/neglect per 1,000 children ages 0-17 per year.

Source: Needell, B., et al., Child Welfare Services Reports for San Diego County and California, July 2004 obtained from the University of California at Berkeley Center for Social Services Research website at cssr.berkeley.edu/CWSCMSreports/; County of San Diego, Health and Human Services Agency, Children Welfare Services analysis of County data from CWS/CMS.

2. Rate of Domestic Violence Reports: Annual number of law enforcement responded domestic violence cases and calls per 1,000 households.

Source: San Diego County, Health and Human Services Agency, Strategy and Planning Division's analysis of data obtained from the Automated Regional Justice Information System (ARJIS), with the assistance of the San Diego County District Attorney's Office; Population estimates from SANDAG.

3. Rate of Court Cases Filed Against Youth Offenders:

Number of delinquency petitions filed in Juvenile Court per 1,000 children ages 10-17 per year.

Source: County of San Diego, Probation Department.

4. Rates of Violent Crime Victimization of Children and Youth (Ages 0-11): Number of victims of violent crimes (homicide, sexual victimization, robbery by force, and aggravated assault) per 10,000 children ages 0-11 and 12-17, respectively, per year.

Source: San Diego County, Health and Human Services Agency, Strategy and Planning Division analysis of data obtained from Automated Regional Justice Information System (ARJIS) with the assistance of the San Diego Data Processing Corporation and SANDAG; Population estimates from SANDAG.

5. Rates of Violent Crime Victimization of Children and Youth (Ages 12-17): Number of victims of violent crimes (homicide, sexual victimization, robbery by force, and aggravated assault) per 10,000 children ages 0-11 and 12-17, respectively, per year.

Source: San Diego County, Health and Human Services Agency, Strategy and Planning Division analysis of data obtained from Automated Regional Justice Information System (ARJIS) with the assistance of the San Diego Data Processing Corporation and SANDAG; Population estimates from SANDAG.

6. Rate of Unintentional Injury Hospitalizations and Deaths of Children and Youth: Number of unintentional injuries (requiring hospitalization) and deaths due to unintentional injuries among children and youth ages 0-18 per 100,000 children and youth ages 0-18 per year.

Sources: County of San Diego, Health and Human Services Agency, Emergency Medical Services analysis of data obtained from the: State of California, Department of Health Services, Office of Statewide Health Planning and Development, Hospital Discharge Data set; State of California, Department of Health Services, Center for Health Statistics, Vital Statistics Section, Death Statistical Master Files; State of California, Department of California Highway Patrol, Information Services Unit; Statewide Integrated Traffic Records System.

7. Rate of Injuries and Deaths Due to Alcohol-Related Motor Vehicle Crashes: The number of children and youth ages 0-15 and 16-20 killed or recorded by law enforcement as injured in motor vehicle crashes related to alcohol per 100,000 children and youth ages 0-15 and 16-20, respectively, per year.

Sources: County of San Diego, Health and Human Services Agency, Emergency Medical Services analysis of data obtained from the: State of California, Department of Health Services, Office of Statewide Health Planning and Development, Hospital Discharge Data set; State of California, Department of Health Services, Center for Health Statistics, Vital Statistics Section, Death Statistical Master Files; State of California, Department of California Highway Patrol, Information Services Unit; Statewide Integrated Traffic Records System.

8. Rate of Injuries and Deaths Due to Alcohol-Related Motor Vehicle Crashes: The number of children and youth ages 0-15 and 16-20 killed or recorded by law enforcement as

injured in motor vehicle crashes related to alcohol per 100,000 children and youth ages 0-15 and 16-20, respectively, per year.

Sources: County of San Diego, Health and Human Services Agency, Emergency Medical Services analysis of data obtained from the: State of California, Department of Health Services, Office of Statewide Health Planning and Development, Hospital Discharge Data set; State of California, Department of Health Services, Center for Health Statistics, Vital Statistics Section, Death Statistical Master Files; State of California, Department of California Highway Patrol, Information Services Unit; Statewide Integrated Traffic Records System.

EDUCATIONAL ACHIEVEMENT

1. Percent of Students Attending School Per Day: Average percent of public school students enrolled in kindergarten through 12th grade that attend school each instructional day in one school year.

Source: California Department of Education, Education Demographics Unit, available on the Internet at <http://data1.cde.ca.gov/dataquest>; San Diego County Office of Education, Business Services Division, Pupil Accounting, available on the Internet at <http://www.sdcoe.k12.ca.us>.

2. Rate of High School Seniors Who Graduate Annually: Percent of high school seniors that graduate (receive a diploma) each school year.

Source: California Department of Education, Educational Demographics Office, California Basic Educational Data System, available on the Internet at <http://data1.cde.ca.gov/dataquest>.

3, 4, & 5. Percent of Students Scoring at or Above Proficient on the English Language Arts Test of the California Standards Tests (Grades 3, 8, 11): Percent of Students Scoring at or Above Proficient on the English Language Arts Test in San Diego County: 2000/01 - 2002/03.

Source: California Department of Education, Standardized Testing and Reporting Program, available on the Internet at <http://star.cde.ca.gov>.

6. Percent of Public High School Seniors that Have Taken the SAT (College Entrance Test): Percent of public high school seniors that have taken the SAT (Scholastic Assessment Test) either as a junior or senior.

Source: California Department of Education, Educational Demographics Office, California Basic Educational Data System, available on the Internet at <http://data1.cde.ca.gov/dataquest>.

DEMOGRAPHIC AND POPULATION DATA

San Diego County and California Population and Race/Ethnicity Statistics.

Sources: County of San Diego, Health and Human Services Agency analysis of data obtained from the San Diego Association of Governments (www.sandag.gov); State of California, Department of Finance (www.dof.ca.gov); and the U.S. Census Bureau (www.census.gov).

Note: All population estimates for 2000 - 2003 have been revised to reflect the 2000 Census. However, population estimates used to calculate rates for the 1990's were not revised to reflect the results of the 2000 Census unless specifically noted.
